## IV. FIRST-AID MEASURES

---

|                         |  |
|-------------------------|--|
| <b>Inhalation:</b>      | Remove to fresh air. If breathing is difficult, have a trained individual administer oxygen.   |
| <b>Eyes:</b>            | Use eye wash to remove a chemical from the eye. Flush the affected eye for at least fifteen minutes. Tilt the head to prevent chemical from transferring to the uncontaminated eye. Seek medical attention if irritation persists. |
| <b>Skin Contact:</b>    | Wash with soap and water. Get medical attention if irritation develops or persists. Seek medical advice if symptoms persist.   |
| <b>Ingestion:</b>       | Minimal risk of harm if swallowed. Do not induce vomiting. Seek medical attention immediately. Provide medical care provider with this SDS.  |
| <b>Notes to Doctor:</b> | Aspiration during swallowing or vomiting may severely damage the lungs. If evacuation of stomach contents is necessary, use method least likely to cause aspiration.   |

## V. FIRE FIGHTING MEASURES

---

|  |   |
|--|---|
| <b>Flammability Summary:</b>                 | Combustible at elevated temperatures  |
| <b>Extinguishing Media:</b>                  | Use alcohol resistant foam, carbon dioxide, or dry chemical when fighting fires. Water or foam may cause frothing if liquid is burning but it still may be a useful extinguishing agent if carefully applied to the surface of the fire. Do not direct a stream of water into the hot burning liquid. |
| <b>Fire and/or Explosion Hazards:</b>        | Material may be ignited only if preheated to temperatures above the high flash point, for example in a fire.  |
| <b>Fire Fighting Methods and Protection:</b> | Do not enter fire area without proper protection including self-contained breathing apparatus and full protective equipment. Use methods for the surrounding fire.  |
| <b>Hazardous Combustion Products:</b>        | Carbon monoxide, Smoke  |

## VI. ACCIDENTAL RELEASE MEASURES

---

|  |  |
|--|--|
| <b>Personal Precautions and Equipment:</b> | No health affects expected from the clean up of this material if contact can be avoided. Follow personal protective equipment recommendations found in Section 8 of this SDS.  |
| <b>Methods for Clean-up:</b>               | Prevent the spread of any spill to minimize harm to human health and the environment if safe to do so. Wear complete and proper personal protective equipment following the recommendation of Section 8 at a minimum. Dike with suitable absorbent material like granulated clay. Dispose of according to Federal, State, Local, or Provincial regulations. Used fluid should be disposed of at a recycling center. Remove from water surface by skimming or with suitable absorbents. Do not use dispersants. Avoid runoff into storm sewers and ditches that lead to waterways. Do not flush to sewer. |

## VII. HANDLING AND STORAGE

---

|                              |   |
|------------------------------|---|
| <b>Handling Precautions:</b> | Mildly irritating material. Avoid unnecessary exposure.         |
| <b>Storage Conditions:</b>   | Store in a cool dry place. Isolate from incompatible materials. |

## VIII. EXPOSURE CONTROLS/PERSONAL PROTECTION

---

|                                |  |
|--------------------------------|--|
| <b>Engineering Controls:</b>   | Use local exhaust ventilation or other engineering controls to minimize exposures and maintain operator comfort.   |
| <b>Respiratory Protection:</b> | Respiratory protection may be required to avoid overexposure when handling this product. General or local exhaust ventilation is the preferred means of protection. Use a respirator if general room ventilation is not available or sufficient to eliminate symptoms. |
| <b>Respirator Type(s):</b>     | None required where adequate ventilation is provided. If airborne concentrations are above the applicable exposure limits, use NIOSH/MSHA approved respiratory protection.   |
| <b>Eye Protection:</b>         | No special requirements under normal industrial use.   |
| <b>Skin Protection:</b>        | Where use can result in skin contact, practice good personal hygiene and wear impervious gloves. Wash hands and other exposed areas with mild soap and water   |
