

## Safety Data Sheet I. PRODUCT AND COMPANY IDENTIFICATION

Product Name:	PARTS MSTR 10W30 CJ4 3/1
Product Code:	PMI2133P
<b>Emergency Phone:</b>	CHEMTREC: +1 (800) 424-9300
	International: +01 (703) 527-3887
Poison Control	(800) 222-1222
Center:	
Company:	Warren Distribution, Inc.
	727 S. 13th Street
	Omaha, NE 68102
Information Phone:	+01 (800) 825-1235 +01 (402) 341-9397
E-mail:	sds@wd-wpp.com

## **II. HAZARDS IDENTIFICATION**

Routes of Entry: Skin contact, Inhalation, Ingestion, Eye contact, Absorption   Target Organs: Lungs   Chemical Interactions: No chemical interaction known to affect toxicity.   Conditions Aggravated by Exposure: Personnel with pre-existing skin disorders should avoid contact with this product., Lung disease   Acute Health Effects: Inhalation Irritation: Breathing oil mist in concentrations that exceed the TLV and PEL may result in respiratory discomfort and irritation.   Skin Contact: Can cause minor skin irritation, defatting, and dermatitis.   Skin Absorption: No absorption hazard in normal industrial use.   Eye Contact: Can cause moderate irritation, tearing and reddening, but not likely to permanently injure eye tissue.   Ingestion Irritation: Midly irritating to mouth, throat, and stomach. Can cause abdominal discomfort.   Chronic Health Effects: Not expected to cause cancer. This product meets the IP-346 criteria of <3% PAH's and is not considered a carcinogen by the International Agency for Research on Cancer. No data available to indicate product or any components present at greater than 0.1% may cause birth defects.   Mutagenicity: No data available to indicate product or any components present at greater than 0.1% is mutagenic or genotoxic.   HMIS Ratings: Health: 1 Health:: 1   Fire: 1 Fire: 1 Health: 1	II. HAZARDS IDENTI	FICATION

Polybutene	0.5 - 1.5	9003-29-6	
Components not listed are not physical or health bezords.	a dafinad in (	0 CEP 1010 1	200 (Hazard Communication

Components not listed are not physical or health hazards as defined in 29 CFR 1910.1200 (Hazard Communication Standard).

Inhalation:	Remove to fresh air. If breathing is difficult, have a trained individual administer
	oxygen.
Eyes:	Flush eyes with plenty of water for at least 20 minutes retracting eyelids often. Tilt the
	head to prevent chemical from transferring to the uncontaminated eye. Get immediate medical attention.
Skin Contact:	Wash with soap and water. Get medical attention if irritation develops or persists. Seek
	medical advice if symptoms persist.
Ingestion:	Minimal risk of harm if swallowed. Do not induce vomiting. Seek medical attention
-	immediately. Provide medical care provider with this SDS.
Notes to Doctor:	Aspiration during swallowing or vomiting may severely damage the lungs. If evacuation
	of stomach contents is necessary, use method least likely to cause aspiration.

#### **IV. FIRST-AID MEASURES**

## V. FIRE FIGHTING MEASURES

Flammability	Combustible at elevated temperatures
Summary:	
Extinguishing Media:	Use alcohol resistant foam, carbon dioxide, or dry chemical when fighting fires. Water or foam may cause frothing if liquid is burning but it still may be a useful extinguishing agent if carefully applied to the surface of the fire. Do not direct a stream of water into the hot burning liquid.
Fire and/or Explosion Hazards:	Material may be ignited only if preheated to temperatures above the high flash point, for example in a fire.
Fire Fighting Methods and Protection: Hazardous	Do not enter fire area without proper protection including self- contained breathing apparatus and full protective equipment. Use methods for the surrounding fire. Carbon monoxide, Smoke
<b>Combustion Products:</b>	

## VI. ACCIDENTAL RELEASE MEASURES

Personal Precautions	No health affects expected from the clean up of this material if contact can be avoided.
and Equipment:	Follow personal protective equipment recommendations found in Section 8 of this SDS.
Methods for Clean-up:	Prevent the spread of any spill to minimize harm to human health and the environment if
	safe to do so. Wear complete and proper personal protective equipment following the
	recommendation of Section 8 at a minimum. Dike with suitable absorbent material like
	granulated clay. Dispose of according to Federal, State, Local, or Provincial regulations.
	Used fluid should be disposed of at a recycling center. Remove from water surface by
	skimming or with suitable absorbents. Do not use dispersants. Avoid runoff into storm
	sewers and ditches that lead to waterways. Do not flush to sewer.
	Used fluid should be disposed of at a recycling center. Remove from water surface by skimming or with suitable absorbents. Do not use dispersants. Avoid runoff into storm

#### VII. HANDLING AND STORAGE

Handling Precautions:	Mildly irritating material. Avoid unnecessary exposure.
Storage Conditions:	Store in a cool dry place. Isolate from incompatible materials.

## VIII. EXPOSURE CONTROLS/PERSONAL PROTECTION

<b>Engineering Controls:</b>	Use local exhaust ventilation or other engineering controls to minimize exposures and
	maintain operator comfort.
Respiratory	Respiratory protection may be required to avoid overexposure when handling this
Protection:	product. General or local exhaust ventilation is the preferred means of protection. Use a
	respirator if general room ventilation is not available or sufficient to eliminate
	symptoms.
<b>Respirator Type(s):</b>	None required where adequate ventilation is provided. If airborne concentrations are
	above the applicable exposure limits, use NIOSH/MSHA approved respiratory
	protection.
Eye Protection:	Wear chemically resistant safety glasses with side shields when handling this product.
	Do not wear contact lenses.
Skin Protection:	Where use can result in skin contact, practice good personal hygiene and wear

Gloves:	impervious gloves. Wash hands and other exposed before eating, drinking, and when leaving work. Neoprene, Nitrile	areas with mild soap and water

## X. PHYSICAL AND CHEMICAL PROPERTIES

Physical State:	Liquid
Color:	Brown
Odor:	Mild
pH:	Not determined
Viscosity (cSt at	76.95
40°C):	
Solubility in Water:	Negligible; 0-1%
Octanol/Water	Not determined
<b>Partition Coefficient:</b>	
<b>Evaporation Rate:</b>	Not determined
Vapor Density:	Not determined
Vapor Pressure:	<0.20
Boiling Point (°C):	Not determined
Freezing Point (°C):	Not determined
Specific Gravity:	0.87
Density:	7.25
Flash Point (°C):	218
Flash Point Method:	COC
Upper Flammability	= 10
Limit, % in air:	
Lower Flammability	= 1
Limit, % in air:	

## X. STABILITY AND REACTIVITY

A. STADILITT AND N	
Stability:	Stable under normal conditions.
<b>Conditions to Avoid:</b>	Temperatures above the high flash point of this combustible material in combination
	with sparks, open flames, or other sources of ignition. Moisture (will lead to product
	performance degradation).
Materials to Avoid:	Strong oxidizing agents
Hazardous Decomp.	Carbon monoxide, Smoke, Carbon monoxide, sulfur oxides, aldehydes, and other
Products:	petroleum decomposition products in the case of incomplete combustion. Oxides of
	nitrogen, phosphorus, calcium, copper, magnesium, sodium, and hydrogen sulfide may
	also be present.
Hazardous	Hazardous polymerization will not occur.
<b>Polymerization:</b>	

## XI. TOXICOLOGICAL INFORMATION

<u>Acute Toxicity:</u>	
Ingestion:	No hazard in normal industrial use.
Inhalation:	No hazard in normal industrial use.

Absorption:	No absorption hazard in normal industrial use.
Eyes:	The material is likely to be moderately irritating to eyes based on animal data.
Skin:	This material is likely to be slightly irritating to skin based on animal data.
Sensitization:	No data available to indicate product or components may be a skin sensitizer.

<u>Component Toxicology Data:</u>		
Chemical Name	CAS #	LD50/LC50
Distillates (petroleum), hydrotreated heavy	64742-54-7	Inhalation LC50 Rat 2.18 mg/L 4 h; Oral

		>2000 mg/kg
Polybutene	9003-29-6	oral LD50 rat >2000 mg/kg; dermal LD50 rat
		>2000 mg/kg

#### XII. ECOLOGICAL INFORMATION

Bioconcentration:most soil typeBioconcentration:Bioconcentration	This material is expected to have essentially no mobility in soil. It absorbs strongly to most soil types. {EMSFORM_12MOBA} Bioconcentration may occur. Biodegrades slowly.		
Toxicity to Aquatic Invertebrates:	CAS #	Results	
Petroleum distillates, hydrotreated heavy paraffinic	64742-54-7	48 Hr EC50 Daphnia magna: >1000 mg/L	
Petroleum distillates, solvent dewaxed heavy paraffinic	64742-65-0	48 Hr EC50 Daphnia magna: >1000 mg/L	
Toxicity to Fish:	CAS #	Results	
Petroleum distillates, hydrotreated heavy paraffinic	64742-54-7	96 Hr LC50 Oncorhynchus mykiss: >5000 mg/L	
Petroleum distillates, solvent dewaxed heavy paraffinic	64742-65-0	96 Hr LC50 Oncorhynchus mykiss: >5000 mg/L	

#### XIII. DISPOSAL CONSIDERATIONS

Disposal of Packaging:<br/>Disposal Methods:Recycle containers whenever possible.<br/>Dispose of according to Federal, State, Local, or Provincial regulations. Recycle used<br/>oil.

## XIV. TRANSPORTATION INFORMATION

**D.O.T.** Not classified as hazardous for transport (DOT, TDG, IMO/IMDG, IATA/ICAO).

#### XV. REGULATORY INFORMATION

## Consumer Product Safety Improvement Act of 2008 General Conformity Certification:

This product has been evaluated and certified to be labeled and packaged in compliance with the applicable provisions of the Federal Hazardous Substance Act as stated in 16 CFR 1500 and enforced by the Consumer Product Safety Commission, and where applicable the products that require Child Resistant Closures are packaged in accordance with the Poison Prevention Packaging Act as stated in 16 CFR 1700 and enforced by the Consumer Product Safety Commission. All closures have been tested in accordance with the latest protocols. No other testing is required to certify compliance with the above. The date of manufacture is stamped on the product container.
